

Parker MTX · Triple-Lok 37° (Acero)

Tee corrida hembra JIC 37° con rama NPTF, Triple-Lok — acero

Tee corrida (run tee) que une dos tramos de tubo con conexión abocinada JIC 37° en línea recta (extremos 1 y 3) y agrega una rama perpendicular con rosca hembra NPTF (extremo 2) para instrumentación, manómetro o una tercera línea. Es un tube fitting abocinado a 37° según SAE J514 / ISO 8434-2, típico en circuitos hidráulicos y neumáticos donde se necesita derivar una línea sin cambiar el diámetro de tubo principal. El código de tres números (ej. 4-4-4 MTX) indica tubo-rosca NPTF-tubo cuando coinciden en dash; el código de un solo número (ej.
